REPORT - JANUARY 1934

IN presenting the 122nd Annual Report, the Management Committee are able to record another memorable year, for not only has there been an advance in the status of the Infirmary in the Hospital World, but there has also been an increase in the accommodation for patients, and another record has been established in the numbers admitted of both in-patients and out-patients.

In the first place, we are very pleased to report that the Infirmary has now been provisionally approved by the General Nursing Council as a complete Training School for Nurses, and Dr H. H. Moll, of the Leeds Infirmary Staff, has been appointed Honorary Consulting Physician. This means that there will be a steady growth and development of both the medical and surgical work.

With regard to the scheme of Building Extensions proposed in our last Annual Report, September last saw the completion of their first stage, when Mr W. H. Hydes, the donor of Great Northern House, officially opened this extension in the presence of a gathering fully representative of the town and district which the Infirmary serves.

Great Northern House Extension provides accommodation for 20 beds to take the place of the Lyon and Tew Wards at present in use at the east end of the Southgate premises, which wards will be required for purposes of an out-patients' department when the third part of the present scheme is proceeded with.

The second part of the scheme, which provides for a new Operating Theatre on the valley side of the existing buildings and connected with them by a corridor, is fast nearing completion, and it is hoped that in the early summer this Operating Theatre will be in full use. The erection of the much desired new Out-Patients' Department will then be proceeded with without delay.

The Management Committee believe that within the next twelve months the whole of their scheme of extensions, estimated to cost £17,000, will be completed, and when that time arrives, the Committee hope they will be able to report that the amount required has been raised. On 31st December 1932 the Building Fund had reached the magnificent figure of £10,750. It has steadily increased during the year 1933 to £13,375. It is not, therefore, too wild a hope to indulge in that 1934 will see another £4,000 subscribed. Thus will be fulfilled our immediate ambitions.

What then? So far as beds are concerned, remembering that the Lyon and Tew Wards of 14 beds have been converted to other uses, we shall be a hospital of 66 beds. It is no use shutting our eyes to the fact that the area which our Infirmary serves will justify, if not necessitate, the growth of our Infirmary to 80 or 100 beds, considering now the increasing demand for medical beds. The Committee feel, however, that when the present scheme is completed they must take a rest for a year or two until they can feel by experience that our increased maintenance costs will be more than fully met each year.

As mentioned in the opening paragraph, the numbers of patients treated show further increases, and the growth of our work is really astounding when examined for the period since the King Edward Memorial Wing was opened in February 1925, viz :—

	In-Patients	Out-Patients
1926	354	2314
1927	691	2686
1928	908	3198
1929	1007	2986
1930	1175	3602
1931	1562	3665
1932	1617	4277
1933	1755	4637

For 1933, unfortunately, there is a deficit of £39. To many it will be a matter of surprise that the deficit is not much larger, considering we have catered for 20 additional beds at Great Northern House for three months of the year, and also considering all the other adverse circumstances surrounding 1933; and when we remember too that on previous occasions when an increase has been made in our number of beds similar deficits have occurred in the early years of increased accommodation; and the Committee feel that in a very short time the additional money required will be forthcoming.

It would be very nice, of course, if some kindly disposed person who can afford it would forward us a cheque for this amount and so clear off the deficit caused by a wonderful year of development.

On the financial side there is also a development to report in the way of providing an assured income for the Infirmary. The workmen at Upton Colliery have entered into a scheme by which 75% of their contributions will be paid direct to us in future from 1st January 1934. This means an annual contribution of approximately £850, and the Management Committee, in return, have undertaken full responsibility for all hospital treatment required by the Upton Colliery workmen and their families.

The Committee welcome this clear desire to assist the Infirmary by organising voluntary contributions, and it is hoped that during the coming year other bodies of workpeople, in addition to those already contributing in various ways, may come forward and organise voluntary weekly contributions, so that when one of their body is requiring hospital treatment his or her fellow workers may have the comforting thought that their united payment of a few coppers each week is enabling that treatment to be paid for and is not being received by way of charity. Workpeople's contributions in most parts of the country amount to a very large proportion of the annual hospital income. In our area at least a third of our income is derived from workpeople's contributions collected in various ways, and the Committee will be glad if employees of firms not yet contributing will join in.

The Management Committee, during the year, found that our Laundry needed overhauling. It was built and equipped for a 40 bed Hospital, and though it has done the work required for a 60 bed Hospital for some time, when we grew to 80 with the opening of Great Northern House, it was not a matter for surprise to the Management Committee that the Laundry could not deal adequately with the increased work for both patients and staff. Plans have been prepared for the installation of more and better machinery, at a cost of about £800. This is a cost which cannot be avoided, caused by the normal development of the Institution, but when the plans have been executed, the laundry work will be carried out with greater expedition and with more comfort to the workpeople engaged.

The accompanying pages form an interesting record of the year's activities, and a perusal by each individual subscriber will well repay the time spent. We have been so well supported on every hand that the Committee feel they can only say a big "Thank you" to all. We feel, indeed, that all who are working steadily for us will know that all that they do to make our work possible is heartily appreciated by the Management Committee, and perhaps in a more vague yet in no less sincere a way, by the patients themselves, for whom all our efforts are made. We cannot omit this year special reference to the very valuable assistance given by the proprietors of the "Pontefract and Castleford Express," the "Pontefract Business Guide," and the "Pontefract Advertiser," who have not only steadily supported us throughout the year, but published periodical subscription lists of the Building Fund without charge, and so kept the public fully informed of the progress made.

On behalf of the Committee,

CHAS. JOHNSON.

Chairman.

AUDITOR'S CERTIFICATE.—I have compared the Balance Sheet dated 31st December, 1933, with the Books, Accounts and Vouchers relating thereto. I have also verified the Cash Balance and examined the Deeds and Securities, and have obtained all the information I have required. In my opinion, the Balance Sheet is a true and correct view of the financial position as shown by the Books of the Institution.
